Download and start shaking! You and your children will love it! Read more about the group . --- about Melody Jemez is a project that combines a number of our passions: music, animation, and interaction. As a small group of designers, animators, musicians and developers who spent their childhood creating music with friends, we wanted to re-create that experience for people of all ages. Meet new people with different aesthetic styles and characters built for great new experiences, memories, and ever-growing friendships. Melody Gems was conceived, designed and animated by James Bartley. Arbitrarily coded and produced the program. The music was played by Nathan Mackie and Hani Zahra. Zahra.
